A legacy begins...

True innovation begins with the desire to refine the everyday. This is how my mother, Trudie, first conceived the idea. Existing doormats simply did not meet her standards — neither visually nor functionally. Together with my father, Evert, she decided it could be done differently.

After years of development and refinement, this led to the introduction of the RiZZ outdoor mat in 2006 — where design and functionality come together. To this day, the design stands as a reflection of vision, perseverance, and uncompromising quality. This year, we celebrate 85 years of craftsmanship and 25 years since the origin of a product that has grown into an international icon within the high-end segment.

For me, this is the continuation of a philosophy.

Raised with a deep respect for quality, craftsmanship, and aesthetics, I carry this forward — with the same dedication and a clear view of the future.

EXPERIENCE LUXURY, *Quality* & DURABILITY

in every detail

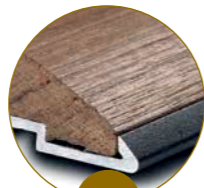

1 OPEN STRUCTURE

Dirt falls through the open spaces between the strips and will be washed away by rain or blown away by wind.

2 ICONIC BRUSH STRIPS

Scrapes 80% more dirt from the soles of shoes, even with profiled soles.

3 SOLID TEAK INLAY

Can be treated or will beautifully fade into a grey colour by nature.

4 ROBUST ALUMINUM FRAME

A solid and rust-free frame ensures 10+ years of durability.

WHERE EXCELLENCE

It is the most beautiful, practical and inviting doormat. Simple design - which I love - and function to match. Couldn't be happier

Excellent experience! I ordered one custom outdoor mat and one standard-sized mat. The products arrived earlier than promised and in perfect condition. The quality is top-notch. I'm very pleased with the purchase.

Amazing doormats - Enter clean and dry!

I'm absolutely thrilled with this set of doormats! The outdoor mat is super sturdy and effortlessly scrapes off coarse dirt from our shoes. Mud, leaves, and sand stay neatly outside. The indoor mat is the perfect complement: it absorbs the last bit of moisture and ensures we walk into the house with dry and clean shoes.

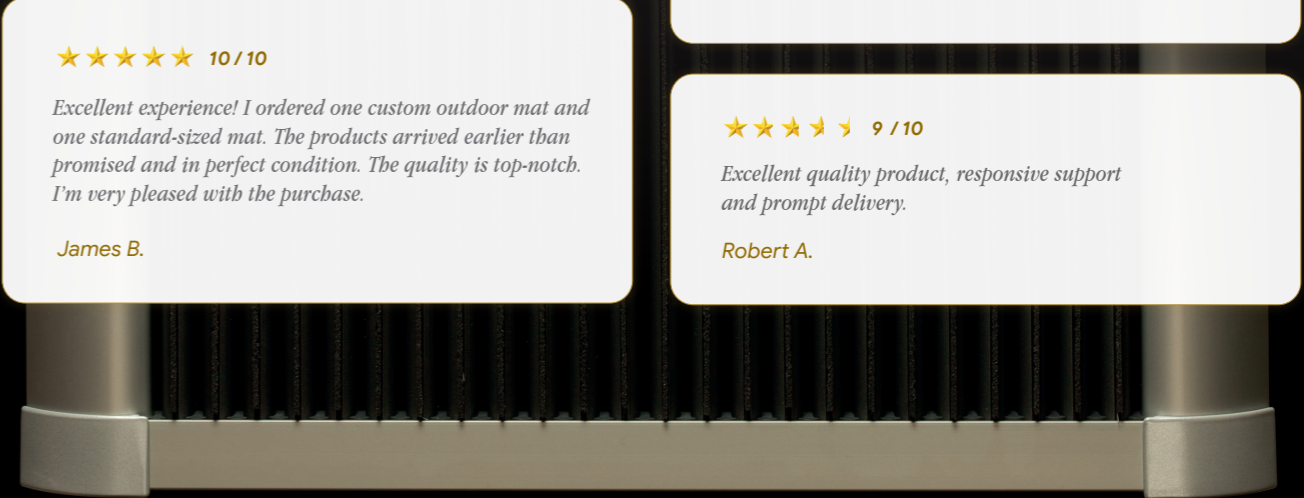

No more wet footprints or sand in the kitchen! Even the dog comes in clean since he walks over the generously sized mat. On top of that, both mats look stylish (we chose the wooden trim) and fit beautifully with the entrance.
